**Intent To Prepare Environmental Impact Statement for Proposed Plan Amendment to Virgin River Management Framework Plan, UT**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Intent to prepare an Environmental Impact Statement (EIS) for a proposed plan amendment to the Virgin River Management Framework Plan (MFP).

**SUMMARY:** This notice is to advise the public that the Bureau of Land Management is preparing an EIS to consider proposed amendments to the land use plan that guides management of public lands within the Dixie Resource Area located in Washington County, Utah. The proposed amendment would consider alternatives for additional opportunities for land tenure adjustments.

**DATES:** The comment period for the preliminary issues and planning criteria identified for the proposed plan amendments will commence with publication of this notice. Comments must be submitted on or before July 5, 1995.

**FOR FURTHER INFORMATION CONTACT:** Jim Crisp, Area Manager, Dixie Resource Area, 345 E. Riverside Drive, St. George, Utah 84770. Existing planning documents and information are available at the above address or telephone (801) 673-4654, Ext. 201. Comments on the proposed plan amendment should be sent to the above address.

**SUPPLEMENTARY INFORMATION:** The Dixie Resource Area of the Cedar City District, BLM, is proposing to amend the Virgin River MFP, to allow for land tenure adjustments not previously identified in the MFP. The main purpose is to identify and analyze lands that could be exchanged and result in acquisition of special status species habitat including desert tortoise habitat and to consider exchange criteria under which future land exchanges could take place. Lands transferred out of Federal ownership to private, state and municipal interests, as a result of the exchanges would be

available to meet the various needs of the respective parties. Where there are specific uses proposed on lands identified for exchange, those uses will be analyzed. This would include the potential use of public lands as an area for water overflow storage associated with the Sand Hollow Reservoir that is proposed to be built on adjacent private land. An Environmental Impact Statement (EIS) will be prepared to analyze the impacts of this proposal and alternatives. This notice begins the BLM planning scoping process. Additional public meetings and scoping will occur during the development of this EIS.

Preliminary planning issues have been identified to consist of possible adverse impacts to public lands once removed from public ownership, conflicts or controversy surrounding the use of public lands for the "overflow" of water from adjacent private lands, economic impacts, impacts on other natural resource and special status species from land disposal.

The following preliminary planning criteria have been identified and set the parameters under which land exchanges may take place:

1. The action results in a net gain of important and manageable resource values on public land such as Desert Tortoise and other T&E species habitat, crucial wildlife habitat, significant cultural sites, high quality riparian area, live water, or areas key to the maintenance of productive ecosystems.

2. The action ensures the accessibility of public lands in areas where access is needed and cannot otherwise be obtained.

3. The action is essential to allow effective management on public lands in areas where consolidation of ownership is necessary to meet resource management objectives.

4. The action results in acquisition of lands that serve a national priority as identified in Federal policy directives.

The following disciplines will be utilized for interdisciplinary input through out the NEPA process: Archeologist, Lands and Realty Specialist, Wildlife Biologist, Range Conservationist, Botanist, Mineral Specialist and Geologist, Certified Appraiser, Engineer, Planning Specialist, Soils Scientist and Hydrologist.

The present land use plan for the Dixie Resource Area is the Virgin River Management Framework Plan (MFP) prepared in 1977. This land use plan is being revised and updated through preparation of a newer and more comprehensive Dixie Resource Management Plan (RMP) but the completion date is uncertain at this

time. The planning amendment now being initiated will amend either the Virgin River MFP or the Dixie RMP, which ever is the current document at the time this amendment is completed.

### Notice of Proposed Reinstatement of Terminated Oil and Gas Lease; Wyoming

May 23, 1995.

Pursuant to the provisions of 30 U.S.C. 188 (d) and (e), and 43 CFR 3108.2-3(a) and (b)(1), a petition for reinstatement of oil and gas lease WYW125896 for lands in Natrona County, Wyoming, was timely filed and was accompanied by all the required rentals accruing from the date of termination.

The lessee has agreed to the amended lease terms for rentals and royalties at rates of \$10.00 per acre, or fraction thereof, per year and 16 $\frac{2}{3}$  percent, respectively.

The lessee has paid the required \$500 administrative fee and \$125 to reimburse the Department for the cost of this **Federal Register** notice. The lessee has met all the requirements for reinstatement of the lease as set out in Section 31 (d) and (e) of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 188), and the Bureau of Land Management is proposing to reinstate lease WYW125896 effective January 1, 1995, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.

5. At 8 a.m., on July 5, 1995, the lands described in paragraphs 2, 3, and 4 will be opened to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. All valid applications received at or prior to 8:00 a.m. on July 5, 1995 shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

6. At 8:00 a.m., on July 5, 1995, the lands described in paragraph 2 will be opened to location and entry under the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. Appropriation of any of the lands described in paragraph 2 under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38 (1988), shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

7. At 8:00 a.m., on July 5, 1995, the lands described in paragraph 4 will be opened to the operation of the mining laws, applicable to 50% of the mineral estate, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. Appropriation of any of the lands described in paragraph 4 under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38 (1988), shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law.
